FORS2_impol_redux Update log

30/03/2023

-- Shifted the centre of the drawn circles for the stamps by +0.5px to be in the centre of the pixel and not at the bottom left corner

24/03/2023

-- Fixed for Issue #1

    -- TARGET input is now an optional parameter. If not provided or provided and the name doesn't match with fits headers, user prompted to choose correct name from a list

-- Added optional parameter –plot_stamps

    -- plots stamps for the apertures upon request

-- Fixed logging issue. Now provides the actual coordinates FWHM and SNR found
